Product Information

Product Long Code	06687000
Customer Facing Code	6687
Description	SCOTT® XL Hand Towels - Roll / White
PDS Reference	18/06/2016

Packaging Configuration

Case Contents	6 Rolls x 354 (m) = 2124 (m)
Outer Pack Material	Plastic
Commodity Code	48182091

Icon	Unit	Dimension		
	Roll	19.80	x	20.00
		Height x Diameter(cm)		
	Sheet	354.00	x	19.80
		Length (m) x Width(cm)		

Product Description

Hand towels on high-capacity rolls that control how much tissue you take and help cut costs and waste.

Ideal for: food contact areas and busy office and hotel washrooms; reducing waste, as hard rolls control the amount of towels you take; drying your hands quickly and comfortably with fewer towels, as they're strong and highly absorbent without breaking up when wet; keeping costs and maintenance down, with good value per roll and less frequent refilling in high traffic areas; caring for the environment (carries the EU Ecolabel).

Available as: 354m hard rolls of white, 1-ply hand towel that's made from strong, highly absorbent AIRFLEX* fabric, safe for food use and supplied in cost-saving 'compressed' packs (with 18% more towels per case).

Bullet Point

- AIRFLEX* highly absorbent
Competitive cost in use

Technology

AIRFLEX*

Compression

KIMBERLY-CLARK PROFESSIONAL* is using new air compression technology to fit up to 18% more paper hand towels into each case, resulting in a range of commercial and environmental benefits. The technology is being applied across a range of KLEENEX and SCOTT Hand Towels manufactured using AIRFLEX* Fabric. Compressed AIRFLEX* Fabric towels will continue to offer superior absorbency and strength and outstanding levels of hygiene and comfort. Along with the following additional benefits: Environmental, it means more towels per truck so fewer trucks on the road. Packaging waste is also reduced. End-users will now need to use less warehouse storage space for the same amount of hand towels, while more towels in each sleeve will mean fewer refills are required.

Trade

ISO 14001

ISO 14001 is an international environmental standard. Designed to help organisations ensure that operations comply with environmental laws, and; major environmental risks and liabilities are properly identified, minimised and managed.

ISO 9001

This gives the requirements for quality management systems, is now firmly established as the globally implemented standard for providing assurance about the ability to satisfy quality requirements and to enhance customer satisfaction in supplier-customer relationships.

Regulation (EC) No 66/2010 of the European Parliament

The European Ecolabel scheme encourages businesses to market products and services that are kinder to the environment. Only products that meet strict environmental standards are entitled to use the Ecolabel accreditation.
